Greetings:

We exist purely to get British pensions indexed in Canada and regardless of whether you are a member of our association or not, you can support a very important action about to take place.

First of all you should be aware that our pressure on the Canadian government has resulted in them recently sending an official request to the UK to enter into a social security agreement to cover pensions. This is HUGE!

The UK have recently signed 23 new agreements with EU countries because of Brexit, and it will be very difficult for them to refuse Canada's request.

I have been able to arrange (through our lobbyists in London) for a 'virtual' zoom video meeting next month between British MPs and Canadian MPs to discuss the issue and we have "The Express" newspaper in the UK prepared to write a story leading up to this important meeting, but they want the headline to be ....

"Thousands of expats in Canada ask PM Boris ... etc, etc. ". ... so I am **pleading** with you to go to this link below and add your name to the letter.

You should also send this email to every British person you know living in Canada regardless of them being a pensioner or not (they will be some day) and ask them to do the same thing.

As this is a "Canadian " initiative, the Express only want those living in Canada to add their names. Here is the link ....

Hopefully if you are not a member, you will consider joining as we are the only group making progress with our affiliate from Australia through ICBP. ([www.endfrozenpensions.org](http://www.endfrozenpensions.org))
